## **Our Quality Policy is to Meet or Exceed Customer Satisfaction**

We will meet or exceed customer satisfaction through continual improvement of our products, services and quality management system. Every employee must understand their quality requirements, performance, and goals, while participating in ongoing efforts to improve quality, value and service. Quality is not just another goal it is a basic strategy.

Quality is the cornerstone of customer confidence. Alto clutches are engineered to meet or exceed customer satisfaction. The process begins with sample testing of all raw materials, followed by controlled checks through all phases of production, finished by a final check of each and every part.
