MAKE	MODEL	APPLICATION	YEAR
GM	Various	Intermediate Wave Spring 5L40E, PN. 156765	Various
DESCRIPTION & NOTES...			

Alto is pleased to announce the availability of the 5L40E Intermediate Wave Spring, Part No. **156765**, which is a direct replacement for the OE wave spring.

BMW: 323i, 325i, Ci/Xi, 328i,
330i Ci/Xi, 525i, 528i,
530i, X3, X5, Z3, Z4

Cadillac: CTS, SRX, STS

Opel: Omega-B

Pontiac: G8, Solstice, GXP

Saturn: Sky, Sky Redline

Due to the intermediate apply piston only making contact with the inside diameter of this wave spring, historically, the wave spring breaks inside the drum causing catastrophic failure of the transmissions. The OE wave spring is not available separately from the dealer.

For prices and availability, please contact your distributor.
