057734-158	3/4 Clutch P/P	.062"	82-On	AR
057736-200	Overrun	.078"	82-On	2
057738-220	Low/Reverse	.087"	82-On	5

DURABILITY AND PERFORMANCE BENEFITS: Alto Products Corp. has developed a High Energy friction paper suited for today's demanding automatic transmissions. It has the ability to withstand high temperatures and long duration shifts with no ill effects. This paper was specifically designed for late model domestic and import transmissions. It has been tested on-site and in the field to insure the best possible results. For absolute confidence in your rebuild, we have made High Energy friction plates for all of the clutch packs in the transmission. All shifts will be smooth and consistent.

Alto's "KRYPTONITE™" friction paper is unmatched by any other High Energy paper.

Installation: The stack-up of the transmission clutch packs is the same method as OE.

Shift... Your Thinking
