## New Product Release

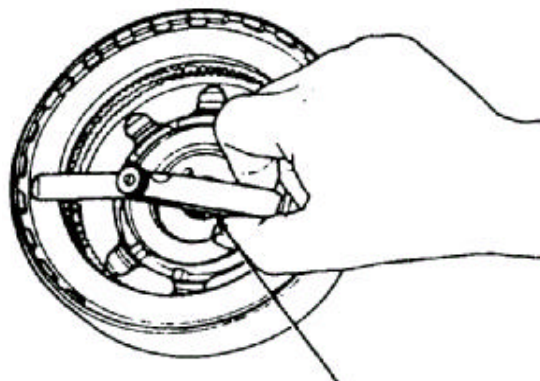

C6 - E4OD – 4R100 / Forward Clutch PowerPack® 66-On  
Alto Part # 026755

Contents of 026755		
Qty	Alto #	Description
6	026740	Forward Clutch Friction Plates
6	026701AK	Forward Clutch Steel Plates
1	026760-480	Forward Pressure Plate (top)

Alto received several requests from builders around the country to produce a PowerPack® that provides more capacity in the Forward clutch. Now you can replace the 4 friction elements with 6 friction elements to handle heavy-duty or Hi-performance applications.

**Installation:** Start by installing the bottom apply plate, next install the cushion spring, then alternately install the frictions and steels, starting with a steel plate and ending with a friction plate. Install the top pressure plate and selective snap ring.

**Clutch Pack Clearance:** Using a feeler gauge measure the distance between the bottom of the selective snap ring and the top of the pressure plate. Clearance should be .030" to .055" (0.76 to 1.40mm) Adjust by selecting the proper snap ring.

Alto Part #	Alto Selective Snap Rings Description	Thickness
026251-058	Forward PP retainer –selective	.058"
026251-076	Forward PP retainer –selective	.076"
026251-094	Forward PP retainer –selective	.094"
026251-112	Forward PP retainer –selective	.112"
026251-130	Forward PP retainer –selective	.130"
