We are pleased to announce the Forward Clutch Drum Saver for the (1-pan Baby E-Cat) 4EAT-F / F4A-EL. This very popular unit has a problem with the OE dish cushion spring rotating and eating away the forward drum. The OE dish spring rides directly on top of the coating clutch drum. Depending on the degree of damage to the forward drum area, the Alto Products Corp. 081755 Drum Saver can be used to save the damaged drum.
