DESCRIPTION & NOTES...			

New Carbon Band for the GM 700R4 Family...

Alto is pleased to announce a new Carbon Lined 2-4 band for the GM 700R4 family of transmissions. This new band will retro back to the 1982 700R4 and will also fit the 2005 4L65E and all the transmissions in between. Both of the band anchors have been hardened to ensure durability, the Carbon lining is up to the task of any application that these transmissions are used for. This is a direct replacement band, for the best performance and to prevent a "Comeback" for 2-4 band failure, use the Alto 057950C Carbon band.
