Harley Davidson Sportster 91-On, Big Twin 90-On

Alto # 095763

Spring Plate with Brass Rivets
Currently Discontinued

Alto # 095763HD

HD Spring Plate with Stainless Steel Rivets
Replaces # 095763 & REF # 37975-90

Update Information:

Alto Products Corp developed and released a new Harley Davidson Spring Separator Plate in August of 2019. This update features 16 Stainless Steel Rivets to hold the plate together for longer lasting durability, instead of the usual Brass Rivets. With this design we addressed the problem in the industry of the original brass rivets loosening over time with high mileage. The original design with **brass rivets** is **now discontinued** and replaced with our Heavy Duty version **Alto # 095763HD**.
