

New Product Announcement

MAKE: Chrysler, Dodge

TRANSMISSION: A727, 46RE/RH, 47RE/RH, 48RE

PRODUCT TYPE: Aluminum Oil Pan

Description & Notes:

Heavy Duty Deep Aluminum Oil Pan Drain Plug & 14 Bolts Included

Chrysler/Dodge Transmissions:

A727 1962-1997, 46RE/RH 1990-On, 47RE/RH 1994-On, 48RE 2003-On

Alto # 028354B

Recommended especially for trucks with the Cummins 5.9L diesel engine where reducing fluid temperature means longer life, fewer failures, and better performance from the transmission when towing or hauling.

Features & Specifications:

- 15" Long x 12" Wide x 5.5" Deep
- Corrosion-resistant Aluminum
- Honeycomb structure for additional strength and heat dissipation
- Deep pan for increased fluid volume and better cooling
- Holds approximately 4 extra quarts of fluid over the OEM amount.
