

# New Product Announcement

**MAKE:** Allison

**TRANSMISSION:** 1000, 2000, 2400, (5 & 6 Speed)

**PRODUCT TYPE:** G4™ PowerPacks®

## Description & Notes:

### 5 New PowerPacks® for Allison 5 & 6 Speed 1999-On Updated with G4™ Hi-Performance Friction Material

- **New Alto # 152755DG4** --- C1 PowerPack® G4™  
(Replaces 152755D)
- **New Alto # 152756CG4** --- C2 PowerPack® G4™  
(Replaces 152756C)
- **New Alto # 152757BG4** --- C3 PowerPack® G4™  
(Replaces 152757B)
- **New Alto # 152758BG4** --- C4 PowerPack® G4™  
(Replaces 152758B)
- **New Alto # 152759BG4** --- C5 PowerPack® G4™  
(Replaces 152759B)

**Alto G4™ Friction  
Alto Power Steel™ PowerPacks®  
Revolutionizes the High-Performance Market**

G4 Friction and Power Steel PowerPacks outperform all other Performance clutch packs on the market. Today's high horsepower applications have gone to a whole new level, so has Alto's NEW G4 Friction and Power Steel PowerPacks technology. Alto G4 friction material is specially formulated with graphitic carbon-based particles for minimizing wear and maximizing heat resistance. Alto Power Steel improves shiftability while maintaining the enhanced wear and fatigue resistance. Alto G4 Friction and Power Steel PowerPacks are engineered to be the most durable product for high-horsepower high-torque applications.

- Higher torque and higher energy capacity
- Improved shift – less noise and lower vibration (NVH)
- Consistent performance despite vehicle use and driver style
- Reduced clutch burnout

*If you want the best, request original Alto G4™ Friction with Alto Power Steel™ PowerPacks®*
